

X7

PREMIUM CLUB DJ MIXER

DIGITAL MIXING PERFECTION. X7 is a four-channel, digital club DJ mixer. This groundbreaking MIDI and USB mixer is the ultimate companion to V7, the motorized DJ-software turntable controller. You can link V7s and X7 using X7's elegant and powerful communication protocol, which enables system connection to your computer with a single USB cable. The link streams ultra high-resolution audio and control information between X7, V7s and software.

FEATURES:

- Four-channel, 24-bit digital mixer
- Full MIDI and USB implementation with two USB interfaces and MIDI jacks
- Elegant V7 system link for streamlined audio and data management
- Dual USB interfaces enable two DJs to connect computers simultaneously
- Enables club owners and techs to lock out or limit master-output level
- Fine-tune acoustics for your specific room with parametric equalization
- Housed in a rugged, heavy-duty steel casing
- Premium buttons, knobs, and faders for smooth, sturdy performance and feel
- Complete range of beat-synced effects and filters
